Definetely
Maybe
Sometimes
Yes definitely
Goood night
Yea
yes

Customer Interaction:

Person 1:

Name: Manoj Kumar
Age: 20
Profession: Computer Science Student

Background:

1. Works on academic and personal coding projects
2. Uses GitHub to explore repositories

Pain Points:

1. Struggles to understand large codebases
2. Difficulty tracking dependencies
3. Time-consuming debugging

Needs:

1. Clear code explanations
2. Easy navigation
3. Faster learning

Person 2:

Name: Bhuvan Reddy
Age: 20
Profession: Computer Science Student

Background:

1. Works on academic and personal coding projects
2. Uses AI to explore make projects

Pain Points:

1. I forget code quickly after writing it
2. Hard to contribute in team projects
3. Fear of breaking existing code
4. Learning from real projects is hard

Needs:

1. Explain my own code

2. Team collaboration helper
3. Safe edit suggestion
